M

Mature, Flowering age  
Cattleya Hybrids

- L.C. Membrino. Medium to Dark colors, Darker lips.  
 L.C. Cameronian. Variable colors and season. Mostly Dark  
 C.-H.S. Leon. Silvery lavender, gold throat, Profilic producer.  
 C. General Pultney. Large Lavender pinks, Rose purple lips.  
 L.C. Grisette. Buffs to Medium and dark Lavenders. Darker lips  
 L.C. Noëlle; Large Rose flower, lip purple and gold.  
 L.C. Nella. Rose Purple, very dark lips, yellow throats.  
 C. Cayuga. Darker colored flowers, gold veined lip, striking.  
 C. Tityus. Rose-lavender flowers, darker lips, flowers twice a year.  
 C. Enid. Large flowers, good color, usually flowers twice a year.  
 C. Hardyana. A hybrid of C. Gigas and the yellow Dowiana Aurea.  
 C. Santa Monica. Light, Med, and Dark flowers with much gold in lip.  
 C. Mount Royal. Warm rose colors, darker lips with gold markings.

These plants are part of our regular stock which we grow for Cut-flowers and which has increased to the extent that we must sell more of them to make room for increases this year. Our houses are not made of rubber and therefore will not stretch, and we need our new houses for seedlings.

The above plants of Cattleya Hybrids are offered for a Limited time at 50% OFF OUR REGULAR PRICE OF \$15.00 Each in six inch pots. This means that right now you may have them at --- \$7.50 each.

C. Bowringiana	-----	5.00	7.50
C. Deckerii	-----	5.00	----

-----\*\*\*\*\*-----

We also have a few plants of What we call growers DISCARDS. These plants are sometimes sold by others according to grade but if a plant does not have a good average flower or BETTER for variety, we prefer to dump them or sell them CHEAP. If you are interested in any of these for experimental work of any kind, please write us and let us make you a very good offer.

1949 List  
of Orchid Seedlings

These seedlings were grown by us here in California and are in 1½ inch (thumb pots). They will need transplanting later this year into larger pots.

Cattleya and Allied Genera

- L.C. Aphrodite . This is L. Purpurata x C. Mendelii
- C. Labiata x Lc. C.G. Roebling
- C. Labiata x C. Mendelii
- C. H.S. Leon x ( C.Furnes x Monarch)
- C. Trident. This is Mossiae x Trimoss
- C. Mossiae Improved
- C. Gaskelliana Improved

The above varieties are offered at \$1.00 each. 12 for \$10.00

\*The Cattleya Hybrids listed below are offered at \$1.25 each

- C. Jane Dane x C. Trianae Alba (both parents alba)
- B.C. Heatonensis. This is C. Hardyana x B. Digbyana
- C. Monmoss x C. Dupreana. Should be fine Dark varieties
- L.C. Trigrey x Labiata-pure white
- C. Cooksonii. This is Hardyana x Trianae. Flowers twice a year.
- B.C. Angkor. This is B.C. Vilmorania x Enid.
- L.C. Eve. this is C. Tityus x L.C. Lustre
- B.C. Ilene. this is B.C. Maronae x C. Dowiana
- C. Monarch x self. Should be mostly Dark colored

\*\*\*\*\*

Dendrobium Seedlings and Small offshoot plants

offered at \$1.00 each. Six for \$5.00

- Dendrobium Nobile
- Dendrobium Alice Bound (only a few Plants)
- Dendrobium Phalaenopsis
- Dendrobium Gibsonii
- Dendrobium Pierardii
- Dendrobium Transparens
- Dendrobium Fimbriatum Occulatum

\*\*\*\*\*

Cymbidium Seedlings in 1½ inch pots  
at \$1.00 each

- Cymbidium Lowianum x Pauwellsii (This is Cym. Beryl)
- Cymbidium Lowianum x Capella
- Cymbidium Lowianum x (Louis Sander x Elfin-fine var.)
- Cymbidium Alexanderii x Erica Sander (This is Bodmin Moore)

\*\*\*\*\*

These are shipped in light weight pots in which they are grown. We recomend ordering early as the first orders will get the largest plants. We do not sell the runts or culls, these are destroyed, but there are some that grow much faster than the average.

## IMPORTED ORCHID SEEDLINGS

### Continued list of additional varieties

Please be sure to read notations regarding these plants before ordering, these notes are on our preceding page.

- No. 10 C. Labiata var. Amesiana x L. Purpurata-pure white
- 15 C. Labiata var. Amesiana x C. Dowiana Aurea
- 19 Laelia Purpurata x C. Trianae-pure white
- 62 C. Granulosa x C. Rex (Color combinations of green & yellow)
- I50 C. Aclandiae x C. Dowiana ( Color Comb. of Green, Brown & Yel.
- I51 C. Aclandiae x C. Granulosa var. Schofieldiana
- I52 C. Aclandiae x L. Xanthina (another green, purple and Yellow)
- I53 C. Leopoldii x C. Diwiana (this should be very interesting)
- I63 C. Warnerii x C. Dowiana (should be very dark colored)
- I65 C. Bicolor x C. Dowiana (this is L.C. Iris)
- I66. L.C. Mabel x C. Dowiana. ( a white with a yellow)
- I67 C. Dowiana x C. Labiata ( A pure white crosses to Yellow)
- I68 L. Tenebrosa x C. Dowiana (L.C. Luminosa)
- I71 L. Purpurata x C. Dowiana
- I72 C. Labiata -pure white x C. Ben Nevis-pure white
- I73 C. Labiata-pure white x C. Labiata-pure white
- I74 C. Eldorado x C. Dowiana
- I86 C. Triumphans x C. Mossiae Wagnerii (Yellow x White)
- I90 L. Purpurata-pure white x L. Purpurata var. Carnea.  
Var Carnea has a Strawberry colored lip.
- 205 C. Mossiae Wagnerii x L. Purpurata-pure white ( this is  
L.C. Cahaminiana-pure white

These plants listed above are priced at \$1.25 each  
f.o.b. Mill Valley California

For the lower priced varieties (\$1.00 each) see preceding  
list.

We will ship these plants packed bare root in sphagnum moss or  
potted in light weight pots, which ever you prefer. Please  
advise.

California Customers-Please do not forget our State Sales Tax.

Orchid Seed available for immediate  
delivery

For those of you who do not want to wait for the newly matured seed and who are willing to try older seed, we offer the following varieties. NONE OF THIS SEED IS OVER SIX MONTHS OLD. all of these varieties have given us good germination in our own plantings.

L.C. Plymouth x C. Edithae var. White Empress.  
A Yellow crossed to a fine pure white.

C. General Pultney Alba x B.L.C. Nannette -pure white var.

B. Digbyana x C. Brussels Alba. Matured early January 1949  
Should produce green and white or pure white B.C. Hybrids

Epidendron Marie Ames x C. Dowiana Aurea. A novelty but should be very interesting and beautiful.

Laelia Xanthina x C. Velutina. Both yellow flowered tho small.

The above seed is from our own crosses and is offered at \$5.00 per packet or Four Packets for \$10.00

\*\*\*\*\*

The seed below is newly imported seed from South America and Elsewhere. It is offered at \$1.00 per Packet. Many of the varieties listed here are almost sold out so it would be best to select a substitute, just in case we are sold out of your First choice.

Cattleya Mendelii x C. Mendelii  
C. Gigas-Special Variety selfed  
C. Trianae-Special Variety Selfed  
C. Kinastiana, very dark parents used  
Cattleya Amethystoglossa x Self.  
C. Amethystoglossa x L.C. Wellsiana  
C. Loddigessi x C. Labiata  
L. Crispa x L.C. Britannia  
L. Crispa x B.C. Empress of Russia  
L. Crispa x C. Mossiae Wagnerii  
C. Enid(Mossiae x Gigas) fine parents used.

Cymbidium Lowianum  
Lycaste Species Mixed  
Stanhopea Wardii

We expect other seed in later this year. If you are interested in any particular variety please write us .

All orchid seed is sent via Air Mail, except that delivered to our Local Customers.

ADVANCE LIST OF ORCHID SEED  
Maturing during the 1949 Season

This method of listing our seed crosses in advance of maturity and booking orders in advance so that we may send you absolutely Fresh Seed has proved the most satisfactory way of ensuring that you will obtain good germination, as fresh orchid seed will stand more unfavorable conditions enroute and still grow whereas old seed is often killed under the same conditions in transit.

- No. 22. C. Trianae alba x L. Purpurata-pure white.  
23 Trianae Alba x Mossiae Wagnerii x (Trimoss Alba)  
24 C. Trianae Alba x (Prince John x L. Tenebrosa var. Walter Grange) A White crossed to a Fine Yellow Hybrid  
25 C. Trianae var Surprise x C. Enid -fine Var.  
26. L.C. Mrs Harold Lloyd x C. Maggie Rafael

The above varieties are either ready now or will be within a few days. They were listed and described in our Winter seed list for the 48-49 season.

No. 28. C. Mossiae fine var. x B.L.C. Fred Danker. This pollin parent is very dark flowered with a purple and gold veined lip. As a seedling it produced three eight flowers while in a four inch pot. Both parents Easter flowering.

No. 29 C. Mossiae-fine var. x C. Intertexta-fine Dark Var. This is another fine Mossiae parent, med Color, with White lip that has a lavender pink border and large gold area within the throat. The Intertexta is a humdinger.

No. 30. L.C. Princess Margaret x C. Hardyana-fine var.  
Princess Margaret needs no description as it is well known as a fine parent. Beautiful large med. Dark Flower. This Hardyana is an eight inch, almost Black-purple flower, it is so dark. Summer and Early Fall Flowering.

No. 31. L.C. Princess Margaret x C. Intermedia var. Aquinii.  
The same Princess Margaret as above crossed to the very rare form of Aquinii. This is the parent which is noted for its feathering and wide wedge of a darker color on the petals, making the flower look as tho it had three lips. This is the parent from which most of the SPLASHED varieties have been obtained. Summer and fall.

No. 32 C. Hardyana, fine dark var x C. Rodomont .fine dark.  
The same hardyana as in cross No. 30 . This Rodomont has won many prizes in Orchid Shows.

No. 33. C. Dowiana Aurea x L. Tenebrosa. This makes L.C. Luminosa Both Parents fine varieties. Ofspring will be yellow or Bronz flowered. Summer Flowering.

No. 34. C. Gatton Ruby x C. Intermedia var. Aquinii. This plant of Gatton Ruby produces long spikes of Five or Six eight inch flowers, well Spaced, of a Medium Color with Broad Wedge of Purple in the lip. Golden throat. The Intermedia Aquinii is the same as in No. 31. Our Object here is of Course to Obtain large Splashed Cattleyas. Fall Flowering.

Continuation Advance Seed List for 1949

Cont.

No. 35. L.C. Membreno x Self. Here is something DIFFERENT. This plant produces flowers which have sepals that are exactly the same size, shape and color as the wide petals. The flowers appear to have five petals and a large darker colored lip. The Outline of the flower is almost round and it is hard to believe it is is an Orchid. This plant is of course a SPORT and may not breed true, however it is well worth growing anyway as it is a fine large dark colored variety with a beautiful full wide lip.

No. 36. C. Harrisonae x C. Hardyana Dark Var. We made this cross to obtain dark colored flowers of Medium size for the ladies to wear in thier hair or on Wrist Bands. Both Parents very outstanding.

No. 37. C. General Pultney, var. Red Wings x C. Intermedia var. Aquinii Here we are sure of obtaining offspring, all or practically all of which will be splashed. Red-Wings is a fine shell pink flower with Maroon feathering down the mid-ribs of the petals. The Aquinii is described under cross No. 31.

No. 38. C. General Pultney-fine var. x C. Dowiana Aurea. We made this cross to obtain fine Dark Colored Hybrids to flower for the Christmass Season. Should be like an Improved Maggie Rafael.

No. 39. C. Arantica (Aurantiaca) x B. Digbyana. This is only a novelty cross. Aurantiaca is a small orange red flower in Clusters and of course B. Digbyana is a large greenish white fragrant orchid with a fringed lip. The pod looks good but we may not get fertile seed.

No. 40. Epidendron Fragrans x C. Aurantiaca. Another Novelty.

Any of the Cattleya Hybrid Crosses listed above are Priced at \$5.00 per single Package or Four Packages for \$10.00  
\*\*\*\*\*

We expect to have a very limited amount of the following seed. Because of the small amount of seed produced by these orchids we have to ask \$5.00 per Packet and limit each customer to one packet of each cross. As this seed is very limited we reserve the right to refuse all orders after the little surplus has been sold. This seed will mature during summer and Fall of 1949.

Miltonia Spectabilis var. Mooreliana x Oncidium Rogersii  
Miltonia Spectabilis var. Mooreliana x self.  
Miltonia Spectabilis var. Mooreliana x Miltonia Roezlii Alba  
Dendrobium (Formosum x Phalaenopsis) x Self.

\*\*\*\*\*

In case any of our seed crosses fail to produce fertile seed we refund your money paid for same or allow you to select another variety, whichever you chose.

All Orchid Seed Sent via Air Mail except to local Customers. California Customers, please include the State Sales Tax.

FRANKLIN W. GAMBLE ORCHID NURSERY. MILL VALLEY? CALIFORNIA  
62 Shell Road- ALTO.

## Miscellaneous Orchids

It is always interesting to have a few new varieties of Orchids to add to your collection. Here is a list of what we can offer. If you do not know what any of these are like and want a more complete description of them, please write us.

*Coelogyne Cristata*. 3 inch pure white flowers with yellow throat. Native to India. 3 to 6 flowers per spray. \$ 5.00 per plant

*Brassovola Nodosa*. Three to four inch flowers, green petals White lip. Thick reed-like leaves, easy culture. \$ 2.00 per plant

*Cymbidium* Species. We have both *Cymb. Lowianum*, a green & yellow, barred with red-brown and *Cymb. Eburneum*, a white flowered variety. Established plants of either variety. \$7.50 each.

*Cymbidium* Hybrids. At this time we can offer only Two varieties of Established *Cymb. Hybrids*.

Cymb. Pearson x Robin Adair	- 6 inch pot.	\$10.00
Cymb. Richmond	6 inch pot.	15.00

Epidendrons as follows	priced from	to
<i>O'Brienanum</i> (dark Red)	1.00	\$.00
<i>Radicans</i> (orange red)	1.00	
<i>Frangrans</i> Greenish white, fragrant	2.00	2.50
Marie Ames. large flowers green petals white lip		2.50
Unknown Species. Green, brown and red flowers		1.00

*Stanhopea Tigrina*. pendulant flowers of yellow and brown. priced from \$2.50 to \$5.00

*Odontoglossum Grande*. The Tiger Orchid. Large Yellow Flowers with red-brown bars across the petals. The lip has a projection that is shaped like a little doll. plants, flowering size at \$5.00 to \$7.50

*Laelia anceps*. long spikes of lavender flowers \$2.50

*Laelia autumnalis*. light to med. lavender flowers in sprays  
\$1.00 to \$2.00 per plant

*Laelia Gouldiana*. A natural Hybrid of the above two *Laelias*.  
\$2.50 to \$3.50 per plant

*Oncidium spatulatum*. Scapes 3 to 5 feet high with many yellow flowers about one inch across. Established plants \$2.50 to 3.50

*Oncidium Splendidum*. small greenish-yellow sepals and petals large pure yellow lip. often called the Golden Butterfly Orchid  
Plants priced at \$5.00 each.

*Oncidium varicosum*. yellow sepals and petals barred with brown large yellow lip. flowers during the summer whereas *Splendidum* flowers during the winter. \$5.00 to 8.50 per plant

*Oncidium luridum*. flowers one to two inches across, yellow spotted with green or orange red. Flowers here during the late summer..  
\$2.50 to \$5.00 per plant.

FRANKLIN W. GAMBLE ORCHID NURSERY. MILL VALLEY, CALIFORNIA  
62 Shell Road - Alto

We also have a few flowering size *Dendrobiums* and *Miltonias*  
If interested please write us.
